DRIBOND

A revolutionary polymer modified dry mudset.

PORCHES & PATIOS

DRIBOND

A revolutionary polymer modified dry mudset.

A revolutionary polymer modified dry mudset.

- Specifically Developed for Porches & Patios
- Cost Efficient
- No Concrete Removal/Demo
- Quick & Easy Application
- Minimal Preparation Time
- Environmentally Friendly
- Prevents Paver Settling*
- No Long Term Repairs
- Inhibits Mold/Grass/Weeds
- Reduces Installation Time, Resulting in Greater Profits

Installs like Sand, Sets like Cement™

Hardscapes installed with DriBond allow homeowners to extend their living space into the outdoors. Pavers and patio stones are known for their strength and longevity, and excel in harsh environments while providing the appropriate texture for slip resistance.

DriBond makes it easy to convert your current concrete patio into a beautifully designed hardscape living area your family will love.

There is simply no comparison between a regular concrete patio and a patio enhanced with designer pavers and/or natural stone. As you can see in our gallery, pavers and natural stone come in many shapes, sizes and colors.

Ask one of our professionals what would work best for your area and needs.

Updated technical data sheet and MSDS can be found on our website at www.pavertech.com.

PATENT PENDING
*based on sound substrate and proper installation

Specifications:

- Bag Weight:** 50lbs/ 22.7 kg
- Bag Coverage Rate:** Approx. 30 sq. feet (at depth of 3/8")
- ASTM C579, Compressive Strength:** 6,850 psi
- ASTM C666, Freeze Thaw Ratio:** 94%
- ASTM C308, Final Set-Time:** 5:40
- Maximum Depth:** 1"
- Maximum Variance:** 5/8"

*** Wait 24hrs for foot traffic and 48hrs for vehicular traffic.**
